

## Questions to Answer:

---

- What did you notice or wonder about stormwater during your walk?
- What did you find that would increase or decrease stormwater runoff in your neighborhood?
- What problems did you find, if any?

## Using the Diamond:

---

1. Write your name and the date on your corner of the diamond then take 3 minutes to write or draw your answers in your corner.
2. Each group member shares their answers and answers other's questions.
3. Record a summary of discussion in center Diamond.
4. Share your group's summary with class.
